

A happy hideout

Tired of your room? Create your own private world where you make up the rules. Just gather together some chairs, armchairs, blankets, tables, and things you can use to decorate your new den! Invite a friend or two over for even more hideout fun.

Hang a blanket over two chairs that have been set apart, or a chair and a table. Use heavy books to weigh it down.

Use a broom to lift the blankets in the middle turn this to stop the widow your hideout so it's like a tent.

If you can, illuminate your hideaway with LED fairy lights—the effect will look like glowworms in a cave!

Add a few pillows, cushions, and rugs, and you will feel like royalty!

Grab all the books and toys and any other treasured things you would like to have with you in your hideaway and make yourself at home!
