

# Norrtullsgatan 22

**THIS BEAUTIFUL, SPACIOUS** corner apartment in Stockholm is located in the Vasastan neighborhood, a quiet, elegant area with trendy cafés, boutiques, and lush parks. The unusual corner apartment has undergone an extensive renovation that has preserved the building's historical details, while adding contemporary Nordic features. Five rooms have been cleverly arranged within the 155-square-meter apartment. The designers have preserved the house's original features, such as the delicate stucco surfaces, an old ceramic tiled oven, high double doors, and herringbone timber floors. The subtle green, red, and gray walls combined with the sophisticated mid-twentieth-century modern furniture provide an interesting touch to the interiors.
