Preface
When it comes to 'better
living' in the often ephemeral
world of fashion, may
we suggest a few staples
that will stand the test of
passing seasons?

01
Kaneko Megane
Fukui

Who wants to be poking contact lenses in their eyes? Relax, enjoy your dodgy eye-sight; people look better in specs. But choose wisely – this pair is handmade in Japan by Kaneko Megane and offers the right blend of aestheticism and functionality.

Fendi
Rome

The right accessory can not only complete a look but also allow you to dress up the low-key, when all you want to do is pull on a favourite T-shirt and some Edwin jeans. Fendi's 1920s-inspired slip-on bangles in pop colours are the perfect all-round solution.
