From Breaking News to Scientific Discoveries and Sports Coverage

Co-edited by
JAVIER ERREA

Cutting-edge journalism and enticing visuals: infographics facilitate the understanding of complex issues. Visualization techniques are woven with the art of storytelling to depict scientific discoveries, historical events, politics, geography, natural disasters, and societal phenomena as well as breaking news. Co-edited by Javier Errea, *Visual Journalism* showcases the best examples from newsrooms across the globe and demonstrates how the visualization of information has shaped how we see and how we understand our world.
