Retail is dead, long live retail. *Shoplifters* explores innovative store concepts and provides expert insights into how brands can engage with their customers in novel ways.

Disrupted by online shopping, shops and brands find themselves in a permanent battle over the most innovative store concepts, striking window displays, and genius presentation of goods, to breathe new life into the traditional retail flow. This creative struggle has heralded a golden era of retail design. Brand experiences now stretch far beyond the end product; the dialogue between a shop and its consumers is becoming increasingly important. Companies are tapping the talents of top designers and using them in sophisticated flagship stores or unexpected temporary venues. *Shoplifters* showcases the most outstanding concepts across a number of industries, introducing the most innovative brands with rich, in-depth case studies.
Craft a Home presents bespoke interior solutions and the skilled people that create them.

Was everything better in the good old days? It’s a widespread fallacy, at least when it comes to crafts. These days, more and more people are on the hunt for high-quality furniture, including custom kitchens, hand-woven carpets or regionally crafted cupboards—appliances with a sense of history and personality, built by small manufacturers. Craft a Home introduces the craftspeople and designers that use traditional processes and modern materials and technology to create furniture and accessories—redefining the modern standard with a nod to the past. Who specializes in marble inlays, and who is the go-to for a bespoke stool? And where can we find these unique designs? Craft a Home explores this world of value, celebrating the best in the business for every aspect of design.
A place that symbolizes freedom, traveling and the wind of change: *It’s a Gas!* is going in search of the most unique gas stations around the world.

The first gasoline was sold in pharmacies—but this was to change in the 1950s. As the car experienced its great rise in popularity, gas stations began to pop up like mushrooms out of the ground. Futuristic and progressive, these modern temples of mobility became roadside reference points for young people hungry for independence, and to everyone who strove for a sense of freedom.

*It’s a Gas!* explores the surprisingly diverse world of the gas station—a functional high-tech temple, a transit zone, a film set, a converted residence, or an abandoned ruin hidden in a backyard. The world of pumps is full of surprises, ready to be discovered in this book.
From one side of the globe to the other, Isay Weinfeld is one of the most sought-after architects. Weinfeld is inimitable in the realm of combining modern elegance with tropical lightness. Under his hand, lushly landscaped courtyards and long corridors open into wide spaces: a view of a pool or a dramatic indoor waterfall. The Brazilian architect's works are characterized by glass and concrete, dark wood shades and soft color accents; all elements of a special brand of distinguished restraint.

Isay Weinfeld, a volume dedicated to an architect who rarely discusses his own work, shows the full range of homes and hotels designed for prominent artists, actors, film-makers, and businessmen. Previously unpublished photographs visually describe his work and discussions of unique projects give insight into Weinfeld's fine set of skills.

Bauhaus minimalism meets tasteful elegance. The Brazilian architect Isay Weinfeld designs houses and hotels in style.

Around the world, more and more of us are moving to cities and establishing our homes there. The urban landscape offers a multitude of enticing options: from cozy apartments to chic duplexes to historic townhouses. Whether it be Sao Paolo or Stockholm, Tokyo or Toronto, urban environs influence choices of furniture, accessories, and interior design—perhaps even as much as the character of the inhabitants.

This book takes readers across the thresholds of these contemporary dwellings. Conversations with those who outfit the spaces and with those who live within the lavish domiciles paint a narrative of modern materials and classic style. Bohemian Residence’s detailed portraits provide a tantalizing tour through contemporary interiors in cities worldwide.

From vertical living to upscale townhouses, these city abodes showcase inviting and innovative metropolitan interiors and lifestyles.
Interior designers and architects are creating unforgettable spaces and setting stunning new standards for restaurants, bars, and cafés. People love to go out and indulge their sens- es by trying new restaurants. Pastel colors, hyper-realistic murals, indoor jungles, curved and luxurious couches, golden accents, and soft light. Designers, architects and restaurateurs transform a night out at a restaurant into a unique and memorable experience.

An array of interiors creatively corresponds with each particular menu's offerings: join Appetizer as it visits fashionable bars, tasteful eateries, cozy cafés, mobile food trucks and everything in between.

Exquisite room concepts are realized with unusual ideas and materials, and experts showcase how to create dream rooms in dining realms. Within Appetizer awaits a range of inspiration for all who wish to satisfy their visual hunger.

An oasis within the home: contemporary bathroom design that can be simultaneously luxurious and functional.

Where can you start your morning routine and unwind and relax at the end of a long day? The bathroom. It can be a sanctuary within one’s own four walls or a place to pause before rushing out of the door. From the utilitarian to the luxurious and from the Victorian-influenced to the modern, these rooms are also showcases for stunning design. Whether looking for resourceful solutions for a guest bathroom or rich details to add to a decadent master bath, one is sure to find inspiration within the pages of Take a Bath. Examples from large firms and smaller designers pair with conversations with those who create their own practical and splendid spaces.
Adding. Extending. Transforming. *Upgrade* breathes new life into forgotten architecture. Past structures are consciously preserved and revamped, expanded and altered, to create something exciting and enticing.

*Upgrade* explores architectural and design concepts that seek to enhance and repurpose our surroundings from slight changes to complete renovations. Extensions upon a rooftop. Factories turned into relaxing retreats. Wood additions contrasting with antique brick exteriors. Through engaging anecdotes and inspiring images, *Upgrade* will spark enthusiasm for revamping existing spaces. Repurposing the unused: be it an empty chapel that becomes an inviting writer’s nook or a rotten barn converted into a cozy living space for a small family. The projects illustrate the possibility of adding a touch of the new to the old: farmhouses adorned with modern glass additions or churches whose traditional lines now frame an office. What are ruins to some become another’s architectural playground.

**Small Homes, Grand Living**

Limited space, immense possibilities. *Small Homes, Grand Living* shows how to make use of modest-sized rooms and how to turn a small apartment into your personal design marvel.

*Small Homes, Grand Living*’s collection of projects and homes pays homage to the iconic innovation within small living areas and shows the creative usage of space in continually expanding cities. Compact flats perched atop the roofs of high-rise buildings. A one-bedroom apartment that houses a family of four. As more people move to the city, the question of where they will live naturally arises. These cozy cocoons show the personality and innovation of those living inside: a home is both shelter and a welcoming reflection of the residents. *Small Homes, Grand Living* offers real interior design solutions from the imaginations of the occupants.

*Small can indeed be beautiful according to *Small Homes, Grand Living*, a new book by Gestalten showing how innovative designers and architects across the world have managed to create innovative homes for people in compact spaces.* — *CNN Style*

Over the past decade, Monocle editors have been writing about—and staying in—plenty of hotels. They’ve put to the test everything from cozy inns in the backstreets of Beirut to cutting-edge offerings from international brands in New York, Tokyo and beyond. At the heart of everything has been one guiding principle: to find stops that get the simple things right and understand the value of thoughtful hospitality. 

In this brand-new book, Monocle reveals not only its 100 favourite hotels but also how you could start number 101 on its list with a wealth of advice and insight into what owning and running a perfect establishment involves. From stunning photography and illustration to snappy essays and sharp observations, The Monocle Guide to Hotels, Inns and Hideaways delivers a complete review of everything from escapers’ bolt holes to third spaces for entrepreneurs.
Tattoos have gone mainstream. Here comes the tattoo underground.

Tattoos now have mass appeal, but beyond the mainstream, a new tattoo underground has developed. It is as innovative, diverse, inspiring, and controversial as the motifs it creates. Forever is a stunning documentation of this dynamic current scene. The book showcases key tattoo innovators and a broad range of fresh styles. In addition to its cutting-edge selection of quality visuals, it features insightful text portraits of artists Alex Brinnie, Yann Black, Scott Campbell, Curly, El Monga, Fergadelic, Mike Giant, Thomas Hooper, Jon John, Alix Lambert, Guy Le Tatoer, Duke Riley, Robert Ryan, Jonas Uggli, Amanda Wachob, and Duncan X. A preface by heavily tattooed art historian Matt Ladder puts current developments in tattooing into historical context.

From the fluidity of watercolor to the meticulous nature of dotwork to the stunning detail of realism, the various styles of tattooing allow creativity to flourish. And whether inked in a clandestine spot or showcased visibly, every piece has its story. In Ukraine and Turkey, tattoos are political statements. Today, celebrated artists travel the world, organizing appointments exclusively via social media. Tattooing can be a way of life. Following the success of Forever: The New Tattoo, this volume further tracks the scene’s inventiveness and originality as tattoos emerge from subculture obscurity. Just as the needle infuses the skin with ink, the artists profiled here infuse life into current tattoo culture. Forever More explores their unique stories and iconic work whilst creating a comprehensive narrative of this dynamic and enduring scene.

Modern-day passion, tangible tradition, and striking creativity: trace how tattooing continues to evolve in the follow up to Forever.

Explore the world one step at a time—embark on trails that invite, inspire, and invigorate. *Wanderlust* presents the best walking routes with inviting maps, practical tips, and inspiring landscape photographs.

Following faded footsteps of migrating animals or paths of ancient trade routes, the trails featured in *Wanderlust* offer both outdoor exploration and enjoyment. Through hiking, connections are made between cities and coastlines, people and places. Spectacular photography illustrates journeys to sharp summits, astonishing vistas, and phenomenal locales. *Wanderlust* provides maps and rich details for long-distance trails and shorter explorations from the El Camino Real in North America to the Routeburn track in New Zealand and the byroads in between.

From modern-day transcendentalists who trade facts and figures for flora and fauna to those who simply desire a casual break from concrete scenery, *Wanderlust* allows you to live vicariously through vivid portraits or use the trips as impetus for your own hiking journey.

[*Wanderlust: Hiking on Legendary Trails*, published by Gestalten, captures the diversity of the world’s landscapes.*]
Many of us long to get away from it all in the great outdoors. Converted vans, trucks, station wagons, and other vehicles are increasingly popular means of escape that provide temporary homes amid isolated terrain, sandy dunes, and endless skies.

More and more people are driving off the beaten path to explore the world between destinations. Off the Road is a collection of these outdoor adventures and the vehicular travel companions and equipment that make them possible. Its stunning photography transports readers to awe-inspiring landscapes while revealing the lifestyle of those who make their homes on wheels—at least temporarily. The book also tells the stories of globetrotters who travel on a dime, weekend explorers, surf libertines, and professional adventurers who have created a slice of paradise wherever they choose to park. Whether traveling solo, among friends, or with young children in tow, Off the Road celebrates the joy of being on the go.

These cars are futuristic, utopian, eccentric, and always ahead of their time. From models that were never presented to consumers to those produced as limited series, Fast Forward shows cars that pique people’s interest and enthusiasm.

From cars never shown to those models that see small production runs, Fast Forward presents vehicles that are just as much sculpture as automobile. Iconic winglets adorn models from the 50s. Automobiles of the 70s appear to be works of science fiction rather than modes of transportation. Classic interpretations and vintage prototypes that hinted at the future of yesteryear. Every decade has its own ideas of the future.

The timeline of concept cars is narrated through an alluring pairing ofproject images and stories from inside studio walls. Designers discuss the catalysts behind their creations from the first scribble upon a blank page to a 3D model to the roadways. Fast Forward showcases the past, present, and, in the true spirit of concept cars, the future of this intriguing and diverse realm.
From dog sledding to ice fishing to waterfall climbing, countless possibilities await beyond the crowded ski slope and traditional winter activities. Create the winter wonderland that you desire and crave.

Colder temperatures invite a variety of unique ways to interact with nature. Dog sleighs and snowshoes facilitate movement across snowy plains for everyday icy life whilst ice motocross and figure skating provide a burst of adrenaline. Whether you are looking for a vacation spot where the sun shimmers off of a glittering frozen cliff or for an athletic alternative to the conventional ski slopes, Below Zero guides you through a myriad of adventures. Antarctic voyages, crisp treks to Greenland, or the biker meet-ups in the recesses of the Black Forest tantalize and beckon.

Through images of landscapes dusted in a powdery palette and depictions of cold weather athletics, any questions of what to do with a snow day are answered in Below Zero. This volume explores the brisk side of nature’s beauty and the adventures that await when the mercury drops.

The title says it all: one man, one bike, one long ride, the adventure, the pleasure, and the pain—a travelogue and visual journey.

Martijn Doolaard traded in the convenience of a car and the distractions of daily life for a cross-continental cycling journey: a biped adventure from Amsterdam to Singapore. Leaving behind repetitive routines, One Year on a Bike indulges in slow travel, the subtlety of a gradually changing landscape, and the lessons learned through traveling.

Venturing through Eastern European fields of yellow rapeseed to the intimate hosting culture in Iran, One Year on a Bike is a vivid chronicle of what can happen when the norm is pointedly replaced by exceptional self-discoveries and beautiful sceneries. Doolaard shares the gear and knowledge that made his trip possible.

Small and tightly focused, Herb Lester’s guides are concise city tours in a handy fold-out format that slips neatly into an intrepid traveller’s pocket.

Herb Lester’s aim is to introduce readers to new places as well as re-evaluating familiar ones, and we are as keen to find a new way to see the Louvre as we are to discover an untouched 1950s café. Informed by on-the-ground research, Herb Lester’s one-sheet guides and maps uncover what makes a city special. They are written and researched in-house, and an illustrator who has been specially chosen for the subject designs each one.

Whether it’s an excursion into the green-er areas of London (more numerous than you might think), Paris’s beatnik bookshops, the otherworldly landscape just outside Reykjavík, or the watering holes of Brooklyn, we highlight what makes a place distinctive with our specialist knowledge and illustrations with vintage charm.

In A6 format, the guides fit easily into a pocket and then expand out to A3 or A2 to display the attractions of each city. Each fine-quality sheet is litho-printed in England on 100% recycled stock.

1/ “Smartly designed and cleverly edited—these are maps that I wouldn’t be ashamed of opening up on a crowded street in any city, even my own.” MATTHEW HRANEK, GQ

2/ “Beautiful maps of overlooked aspects of London and beyond.” THE GUARDIAN

Our guide has all you need for a few days in this historic town—where to eat, drink, shop and what to see.

MEET ME IN MILAN

The scale and variety of Milan is daunting; it’s bigger and busier than its southern cousins and less immediately eye-catching, but little exploiting reveals a bewitching city. Alongside global fashion franchises, traditional family-run shops thrive, and while sushi may have its adherents, classic restaurants and pizzerias dominate our suggestions.

Cuba is beginning to emerge from its long hibernation, once again becoming a popular tourist destination. It remains a Communist country with a highly regulated economy, yet today small businesses such as private restaurants and farmer’s markets are beginning to thrive and many of its historic attractions are still open for business.
