David Bowie

1.-6. The death of David Bowie, a pop music icon for 50 years, prompted Libération to publish a special edition on January 12, 2016. On this occasion, the obituary combined black-and-white and color photographs, the latter perfectly reflecting Bowie's aesthetic. This issue provided a marvelous overview of the musician's

artistic career and included extended essays and double-page photographs that acted as frontpieces for each of the facets of his life addressed. A highlight of the issue was the exceptional photo, taken by Brian Aris in 2000, which served as both front and back cover, and featured Bowie playing with his daughter, Alexandria.
