

TABLE OF CONTENTS

PP. 6-9 BUILDING THE HOUSE
The creation of Earth

Imagine our planet is a house. We could compare its creation to a construction site, the continents to different rooms in the house, and its inhabitants to the house's tenants. If we do this, it soon becomes clear that every aspect of life on Earth is connected and that it doesn't take much to disrupt the planet's delicate balance. Fortunately, there are ways to protect our beautiful home! The information in this book is based on the most recent scientific theories, which are always evolving alongside new research and discoveries.

PP. 18-19 THE UPPER FLOORS AND THE ROOF
Terrain

PP. 36-37 THE ROOMMATES
Humans

PP. 20-21 RUNNING WATER
Fresh water on Earth

PP. 32-33 THE CLOSET
The textile industry

PP. 30-31 THE UTILITY ROOM
Garbage and medication

PP. 28-29 THE KITCHEN
Food resources

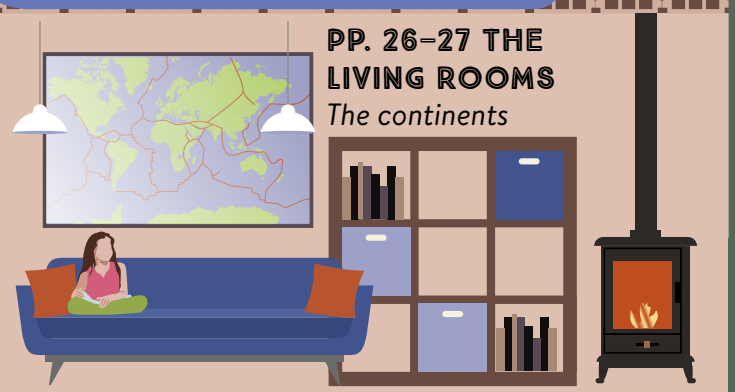

PP. 22-23 THE BATHROOM
The seas and oceans

PP. 38-39 THE ROOMMATES
Animals

PP. 16-17 THE WORKSHOP
Mineral resources

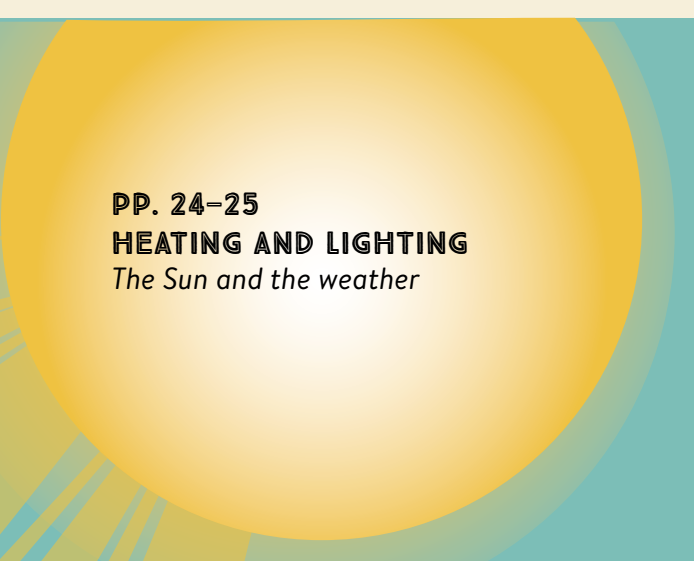

PP. 26-27 THE LIVING ROOMS
The continents

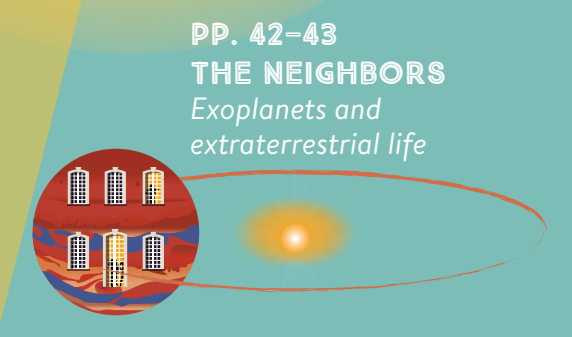

PP. 12-13 THE FIRST FLOOR *The Earth's crust and tectonic plates*

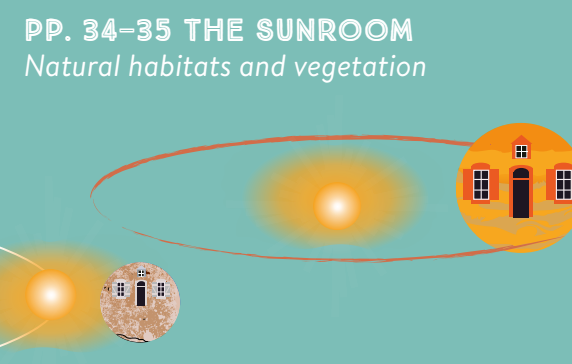

PP. 10-11 THE BASEMENT
The center of the Earth

PP. 24-25 HEATING AND LIGHTING
The Sun and the weather

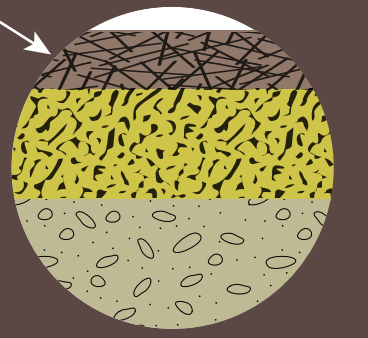

PP. 42-43 THE NEIGHBORS
Exoplanets and extraterrestrial life

PP. 34-35 THE SUNROOM
Natural habitats and vegetation

PP. 40-41 VACATION HOMES
Life on another planet?

PP. 14-15 THE FLOORING
The soil

Words marked with an asterisk* are explained in the glossary, p. 45.
