

Located in the Copenhagen neighborhood of Nordhavn, Audo House is a unique concept that masterfully unites a showroom, an exclusive residence, a concept shop, an event space, a café, and a restaurant in a single site. A reflection of collaborative spirit, Audo House redefines how we use design and space—as well as how we connect to one another—as a creative destination in its own

right and as an eclectic and inspiring hub that fosters powerful ideas and great design. On the top floors, the Audo Residence provides a home away from home. There, guests are welcomed to unwind, surrounded by curated artwork, warm furnishings by Audo Copenhagen, and thoughtful amenities.
