

Make Garden Wind Chimes

You Will Need

Buttons Scissors Paintbrushes Shells
String Paints Old keys Pinecones
Beads Metal clothes hanger Sticks

1

Carefully cut 6-8 equal lengths of string and tie them neatly to the bottom of your clothes hanger around one inch apart.

Top tip: If you don't have a clothes hanger, you could use a stick and some string, instead.

2

Choose which items you would like to make up your wind chimes, then slot or tie them to the string. If you are painting any items, do this first and wait for everything to dry.

3

You could make a nature-themed wind chime from pinecones, twigs, or shells or you could stick to colorful beads and buttons. It's up to you!

4

Old keys are great to hang at the bottom of your chimes as they clink together in the wind. Ting!

5

Choose an outdoor spot that catches the breeze, then either tie or hang your wind chimes up. Sit back and listen to the peaceful sounds they make.
