**CINTA ARRIBAS**  
COME ALL THE WAY!!

◆ The route followed by pilgrims to the Cathedral of Santiago de Compostela in northwestern Spain is known as the Way of St. James. This map by Cinta Arribas illustrates its European variations, including main roads and less-traveled routes through small villages. Archetypal symbols of the Way such as pilgrims, scallop shells, and arrows are placed within the map, which is intended as an informative and friendly invitation to join this inspirational walk.
