

ANTONI TUDISCO
Hamburg, Germany

Antoni Tudisco has become known for his mix of street-style and surreal 3D images. Many of Tudisco's works feature human-like figures, contorted and modified into strangely fashionable alien hybrids, with gold teeth and emoji-tattooed

faces. The dreamscapes he creates often contain something fleshy, like a hint of gray matter or a tongue, alongside soft textiles and glowing orbs. A self-professed "sneakerhead," Tudisco has worked with brands such as Nike, Reebok, Puma, and Adidas. ✦
