

THE HEIRLOOM STACK

Castor Design's Heirloom Stack for luxury Canadian brand Tokyo Smoke reveals inspired creative thinking. Fashioned from rose-pink ridged glass, this elegant three-piece set of marijuana accessories features an ashtray, grinder, and pipe. The design has echoes of the kind of vintage Candy Ware you might find in the china cabinet of a refined neighbor. To reinforce this—and the message that marijuana can be enjoyed by people of all (legal) ages—promotional material features the beautifully manicured, bejeweled hands of a genteel woman of senior years. *
