

CRISTINA LELLO STUDIO  
*Venice, Italy*

Using a clear and decisive visual language of spaces, lights, shapes, and materials, Cristina Lello draws on her background in theatrical scenography to bring stories to life. Her goal is to create worlds that evoke sensations, rather

than a real sense of inhabitability. Lello works with communication agencies, furniture companies, and product designers to transmit their visions using minimalism, geometry, and a strong graphic imprint that is both sharp and playful. ✦
