

SUMMERLAND

With a distinctly dreamy 1960s vibe, Summerland is an outfit in California creating stylish ceramic stonerware. This is a world where the sun always shines, and days are hazy. A range of simple handcrafted, single- and double-chamber bongos includes the 12-inch Chongo and 12-inch deluxe Land Yacht. Pipe designs include a cone-shaped chillum pipe named “Some Hitter,” and the angular handheld Crystal Voyager. Summerland’s products are available in earthy “stone tones” that include terra-cotta, stone, slate, and marble. *
