

Let Fox show you some activities you can do at the seaside.

Organize a rubbish collection

With your friends, collect all the litter on the beach or along the coast. You will be helping to clean up the planet and to rid these natural areas of rubbish that should not be there.

Create a wooden sculpture

The sea often throws up pieces of wood that have been shaped by the salt. Choose one that has an unusual shape and paint it as a present or as a decoration to put in your room.

Collect different sands

Fill some small glass jars with samples of sand from several different beaches. You will be able to compare the contents and analyze the composition, then you can put the jars on show as decorative objects.

Make a mobile out of shells

Collect the prettiest shells you can find on the seashore, and make a hole in them through which you can pass a nylon thread. You can then string them together to make a mobile to hang in your room.

Create a plant aquarium

Collect some sand, some pebbles, a few algae, and shells, and you can make an aquarium that consists 100% of plants, without any fish.
